A HUNTER'S PLEDGE

Responsible hunting provides unique challenges and rewards. However, the future of the sport depends on each hunter's behavior and ethics. Therefore, as a hunter, I pledge to:

- **Respect the environment and wildlife.**
- **Respect property and landowners.**
- **Show consideration for non-hunters.**
- **Hunt safely.**
- **Know and obey the law.**
- **Support wildlife and habitat conservation.**
- **Pass on an ethical hunting tradition.**
- **Strive to improve my outdoor skills and understanding of wildlife.**
- **Hunt only with ethical hunters.**

By following these principles of conduct each time I go afield, I will give my best to the sport, the public, the environment and myself. The responsibility to hunt ethically is mine; the future of hunting depends on me.

TEST TAGS	

Prior to hunting deer, all deer hunters, regardless of age or license status, must obtain deer tags. Tags must be in possession when hunting deer. Immediately upon harvesting a deer, the hunter must tag the deer with the appropriate carcass tag before it is moved from the kill site, and the hunter must document the kill on the harvest report card portion of the deer tag license. The hunter must record the date of kill and the parish of kill on the carcass tag. The tag must remain attached to the deer while kept at camp, or while it is transported to the domicile of the hunter or to a cold storage facility. Hunters who keep the carcass or meat at camp must also comply with the resident game possession tag regulations on page 29. Within 7 days the hunter must validate the kill. Hunters harvesting deer on DMAP lands should follow the instructions provided to them by LDWF. When deer check stations are in operation, hunters on WMAs can validate deer during mandatory deer check hunts. Hunters may validate deer by calling the validation toll free number, 866-484-4805 or using the validation web site: www.la.wildlifelicenses.com.

DEER TAGGING PROCEDURE FOR LICENSES PURCHASED VIA PHONE OR INTERNET

Hunters purchasing licenses by phone or Internet are given both an authorization number and an LDWF identification number that will serve as their license until such license arrives by mail. Hunters must tag deer with possession tags, using the authorization number or LDWF identification number for the required license numbers recorded on the possession tag. Hunters must maintain documentation of these harvested deer and must validate harvested deer as required by law when the hunter receives the original license and tags. The hunter must validate the license information from these harvested deer and must discard the license tags for these validated deer.

REPLACEMENT OF LOST TAGS

Duplicate tags are available to replace lost tags at a charge to the hunter. Hunters that have harvested deer prior to losing their remaining tags must remove and discard the duplicate tags to account for the original tags that have been used and validated. Hunters must record these validated deer on the duplicate deer tag license.

METHODS OF TAKING DEER

Either-sex is defined as male or female deer. Taking or possessing spotted fawns is prohibited.

It is illegal to hunt or shoot deer with firearms smaller than .22 caliber center-fire or a shotgun loaded with anything other than buckshot or rifled slug. Handguns may be used for hunting.

Taking game quadrupeds or birds from aircraft, participating in the taking of deer with the aid of aircraft or from automobiles or other moving land vehicles is prohibited.

Still hunting is defined as stalking or stationary stand hunting without the use of dog(s). Pursuing, driving or hunting deer with dogs or moving vehicles, including ATVs, when or where a still hunting season or area is designated, is prohibited. The training of deer dogs is prohibited in all still hunting areas during the firearms still hunting and archery only season. Deer hunting

with dogs is allowed in all other areas having open deer seasons that are not specifically designated as still hunting only. A leashed dog may be used to trail and retrieve wounded or un-recovered deer during legal hunting hours. Any leashed dog used to trail or retrieve wounded or un-recovered deer must wear a collar with owner's name, address and phone number. In addition, a dog may be used to trail and retrieve un-recovered deer after legal hunting hours; however, no person accompanying a dog after legal hunting hours may carry a firearm of any sort.

It is illegal to take deer while deer are swimming or while the hunter is in a boat with motor attached in operating position; however the restrictions in this paragraph shall not apply to any person who has lost one or more limbs.

IT IS UNLAWFUL TO:

1. carry a gun including those powered by air or other means while hunting with bow and arrow during the special bow and arrow deer season **EXCEPT**, it is lawful to carry a .22 caliber rimfire pistol loaded with #12 shot (ratshot) only.
2. have in possession or use any poisoned or drugged arrow or arrows with explosive tips.
3. hunt deer with a bow having a pull less than 30 lbs.
4. hunt with a bow or crossbow fitted with an infrared, laser sight, electrically operated sight or device specifically designed to enhance vision at night (does NOT include non-projecting red dot sights; RS 56:116.1.(b)(4)).

DEER HUNTING REGULATIONS

AREAS NOT SPECIFICALLY DESIGNATED AS OPEN ARE CLOSED.

BAG LIMITS

One antlered and one antlerless deer per day (when legal) **EXCEPT** on some Federal Lands where the daily limit shall be one deer per day (see specific Federal Lands regulations for details).

Season limit is six, not to exceed three antlered OR four antlerless deer (all seasons included) by all methods of take, **EXCEPT** deer harvested on property enrolled in DMAP may not count in the **season or daily** bag limit for hunters. See DMAP Regulations (LAC 76:v.111) for more information. Antlerless deer may be

harvested during entire deer season on private lands (all seasons included) **EXCEPT** in West Carroll Parish, and **EXCEPT Deer Areas 4, 7, 9 and 10 as specified in deer hunting schedule. Consult deer hunting schedule for either-sex days for these parishes and areas.**

A legal antlered deer is a deer with at least one visible antler of hardened bony material, broken naturally through the skin. Killing antlerless deer is prohibited **EXCEPT** where specifically allowed.

HUNTER ORANGE

Any person hunting any wildlife during the open firearms deer hunting season and possessing buckshot, slugs, a primitive firearm or a centerfire rifle shall display on his head, chest and/or back a total of not less than 400 square inches of "HUNTER ORANGE." Persons hunting on privately owned land may wear a hunter orange cap or hat in lieu of the 400 square inches. These provisions shall not apply to persons hunting deer from elevated stands on property that is privately owned and legally posted or to archery deer hunters hunting on legally posted lands where firearm hunting is not allowed by agreement of the

landowner or lessee. However, anyone hunting deer on such lands where hunting with firearms is allowed shall be required to display the 400 square inches or a hunter orange cap or hat while walking to and from elevated stands. While a person is hunting from an elevated stand, the 400 square inches or cap or hat may be concealed.

WARNING: Deer hunters are cautioned to watch for persons hunting other game or engaged in activities not requiring "Hunter Orange."

PRIMITIVE FIREARMS SEASON

Still hunt only. See page 12 for specific hunting area dates. Specific WMAs will also be open. Check WMA schedule for specified details. A primitive firearms license is required for resident hunters between the ages of 16 through 59 and non

resident 16 years of age and older. Either-sex deer may be taken in all deer hunting areas **EXCEPT** in West Carroll Parish, and **EXCEPT Deer Areas 4, 7, 9 and 10 as specified in deer hunting schedule. Consult deer hunting schedule for either-sex days**

for these parishes and areas. It is unlawful to carry a gun, other than a primitive firearm, including those powered by air or other means, while hunting during the primitive firearm season, **EXCEPT** it is lawful to carry a .22 caliber rimfire pistol loaded with #12 shot (ratshot only).

Youths 17 or younger may hunt either-sex deer with any legal weapon during the Primitive Firearms Season in each deer hunting area.

Legal Primitive Firearms for Primitive Firearms Season include:

1. Rifles or pistols, .44 caliber minimum, or shotguns 10 gauge or smaller, all of which must load exclusively from the

muzzle or cap and ball cylinder, use black powder or approved substitute only, take ball or bullet projectile only, including sabot bullets, including primitive firearms known as “in line” primitive firearms, and

2. Single shot, breech loading rifles, .35 caliber or larger, having an exposed hammer that use metallic cartridges loaded either with black powder or modern smokeless powder. All of the above may be fitted with magnified scopes.
3. Single shot, breech loading shotguns, 10 gauge or smaller, having an exposed hammer, loaded with buck-shot or rifled slug.

ARCHERY SEASON

Still hunting only Oct. 1 - Jan. 31 in all deer hunting areas

EXCEPT Areas 3, 8 & 10: Sept. 21 - Jan. 15 and

EXCEPT Areas 6 & 9: Oct. 1-15, bucks only and Oct. 16 - Feb. 15, either-sex.

WMA seasons are the same as outside **EXCEPT** as noted below. An archery license is required for resident bow hunters between the ages of 16 through 59 and non-residents 16 years of age and older. Either-sex deer may be taken in all areas open for deer hunting **EXCEPT** when a bucks only season is in progress for gun hunting and **EXCEPT** in Area 6 from Oct. 1-15. In such cases, archers must conform to the bucks only regulations. Either-sex deer may be taken on WMAs at anytime during archery season **EXCEPT** when bucks only seasons are in progress on the respective

WMA. Also, archery season restricted on Atchafalaya Delta, Salvador, Lake Boeuf and Pointe-aux-Chenes WMAs. (See WMA for details).

Bowhunting Equipment Regulations:

Longbow, compound bow and crossbow or any bow drawn, held or released by mechanical means are legal means of take for all properly licensed hunters. Bow and arrow fishermen must have a sport fishing license and not carry any arrows with broadhead points unless a big game season is in progress.

PHYSICALLY CHALLENGED SEASON ON PRIVATE LAND

Either-sex. Oct. 5-6, 2013. Restricted to individuals with Physically Challenged Hunter Permit.

DEER HUNTING

YOUTH SEASON ON PRIVATE LAND

Either-sex.

Areas 1, 4, 5, 6 & 9: Oct. 26 - Nov. 1, 2013

Area 2: Oct. 12-18, 2013

Youths must be accompanied by one adult 18 years of age or older. If the accompanying adult is in possession of hunter safety certification, a valid hunting license or proof of successful completion of a hunter safety course, this requirement is waived for youths younger than 16 years of age. Adults may not possess a firearm.

Youths may possess only one firearm while hunting. Legal firearms are the same as described for deer hunting. The supervising adult shall maintain visual and voice contact with the youth at all times. EXCEPT properly licensed youths 16-17 years old and youths 12 years old or older who have successfully completed a hunter safety course may hunt without a supervising adult.

DEER MANAGEMENT ASSISTANCE PROGRAM (DMAP)

Refer to LAC 76:V.111 for specific DMAP rules. Deer management assistance tags must be in the possession of the hunter in order to harvest deer. The tag shall be attached through the hock in such a manner that it cannot be removed before the deer is transported (including those taken on either-sex days and those taken with approved archery equipment or primitive firearms). Failure to do so is violation of R.S. 56:115. Depending upon the level of

participation, antlerless or antlered deer harvested on property enrolled in DMAP may not count in the season or daily bag limit for hunters. Refer to LAC 76:v.111 for more information. Failing to follow DMAP rules and regulations may result in suspension and cancellation of the program on those lands involved. DMAP participants must follow the deer season schedule established for their respective areas.

No person other than the holder of a valid big game license may take or possess bobcat, **EXCEPT** licensed trappers who may take or possess bobcat during the open trapping season. A big game licensee shall only take bobcat during the time period from one-half hour before sunrise to one-half hour after sunset with approved archery equipment, shotgun, primitive firearm or centerfire firearm. A big game licensee shall not take more than one bobcat per

calendar year. This regulation applies only to property that is privately owned, state WMAs and the Bayou des Ourses, Bodcau, Bonnet Carre, Indian Bayou, Loggy Bayou and Soda Lake tracts owned by the U.S. Army Corps of Engineers, but does not apply to state wildlife refuges or other federally owned refuges and lands. On state WMAs the take of bobcat is restricted to those open seasons on the WMAs which require the respective legal weapons noted above.

RACCOON AND OPOSSUM

No closed season. Raccoon and opossum can be taken at night by one or more licensed hunters with one or more dogs and one .22 caliber or smaller rimfire firearm. A licensed hunter may take raccoon or opossum with a .22 caliber or smaller rimfire rifle, .36 caliber or smaller primitive firearm rifle or shotgun during daylight hours. No bag limit for nighttime or daytime raccoon or opossum hunting during the open trapping season **EXCEPT** on certain WMAs as listed. Recreational nutria hunters must remove each nutria carcass in whole condition from the hunting area,

EXCEPT that nutria may be gutted. Possession of detached nutria parts, including nutria tails, by recreational hunters is illegal. Nutria harvested recreationally may not be pelted nor may such nutria or any nutria parts from recreationally taken nutria be sold, including the tail. Trespassing upon private property for the purpose of taking nutria or other fur bearing animals is punishable by fines and possible jail time (R.S. 56.265). The Coastwide Nutria Control Program is a separate program and is in no way related to the nutria recreational season. For questions on the Coastwide Nutria Control Program call the New Iberia field office: 337-373-0032.

Louisiana has determined that the birds listed above are crop depredators and

that crows have been implicated in the spread of the West Nile virus in humans.

As described in 50 CFR Part 21, non-toxic shot must be used for the take of crows, blackbirds, cowbirds and grackles under the special depredation order. In addition, an annual report has to be submitted to the U.S. Fish and Wildlife Service for those that participate in the take of these species.

PHEASANT

It is legal to hunt or take squirrels, rabbits, and outlaw quadrupeds with air rifles.

During closed deer gun season, it is illegal to possess shotgun shells loaded with slugs or shot larger than BB lead or F steel shot while small game hunting.

Still hunting is defined as stalking or stationary stand hunting without the use of dog(s). Pursuing, driving or hunting deer with dogs is prohibited when or where a still hunting season or area is designated.

Shotguns larger than a 10 gauge or capable of holding more than three shells are prohibited. Plugs used in shotguns must be incapable of being removed without disassembly.

Refer to game schedules contained within these regulations for specific restrictions on the use of firearms and other devices.

NUISANCE ANIMALS

Landowners or their designees may remove beaver and nutria causing damage to their property without a special permit. Water set traps and firearms may be used to remove beaver; nutria may be removed by any means (*see Nighttime Take of Nuisance Animals & Outlaw Quadrupeds*). Any nuisance beaver or nutria trapped or shot outside open trapping season cannot be pelted

or sold. A trapping license is required to sell or pelt nuisance beavers or nutria taken during open trapping season. Squirrel found destroying commercial crops of pecans may be taken year-round by permit issued by LDWF. This permit shall be valid for 30 days from the date of issuance. Contact the local LDWF field office for details.

OUTLAW QUADRUPEDS (COYOTES, ARMADILLOS & FERAL HOGS)

Holders of a legal hunting license may take coyotes, feral hogs and armadillos year round during legal daylight shooting hours (*for information on nighttime take see Nighttime Take of Nutria, Beaver & Outlaw Quadrupeds*). The running of coyotes with dogs is prohibited in all turkey hunting areas during the open turkey season. Coyote hunting is restricted to chase only when using dogs during still hunting segments of the firearm and archery only season for deer. Foxes are protected quadrupeds and may be taken only with traps by

licensed trappers during the trapping season. Remainder of the year “chase only” allowed by licensed hunters.

Persons using cage or corral traps to capture feral hogs must have a basic license. Hog traps must have an opening in the top measuring at least 22 x 22 inches or 25 inches in diameter. Persons using snares to capture feral hogs must have a trapping license. Use of snares is not recommended in areas that have bears.

NIGHTTIME TAKE OF NUTRIA, BEAVER & OUTLAW QUADRUPEDS

On private property, the landowner, or his lessee or agent with written permission and the landowner’s contact information in his possession, may take outlaw quadrupeds (coyotes, armadillos and feral hogs), nutria or beaver during the nighttime hours from one-half hour after official sunset on the last day of February to one-half hour after official sunset the last day of August of that same year. Such taking may be with or without the aid of artificial light, infrared or laser sighting devices, or night vision

devices. In addition, pursuant to 56:116 (D) (3) any person who is authorized to possess a firearm suppressor may use a firearm fitted with a sound suppressor when taking outlaw quadrupeds, nutria or beaver. Any person attempting to take outlaw quadrupeds under the provisions of this paragraph, within 24 hours prior to the attempted taking, shall notify the sheriff of the parish in which the property is located of his intention to attempt to take outlaw quadrupeds under the provisions of this paragraph.

POSSESSION TAGS

Any part of the deer or wild turkey divided shall have affixed thereto the name, date, address and LDWF number of the person killing the deer or wild turkey and the sex of that animal. This information shall be legibly written in pen or pencil on any

piece of paper or cardboard or any material which is attached or secured to or enclosing the part or parts. (*Resident Game Possession Tags are provided on page 98 and may be used for such purposes.*)

HUNTING AND/OR DISCHARGING FIREARMS ON PUBLIC ROADS

Hunting, standing, loitering or shooting game quadrupeds or game birds with a gun during open season while on a public highway or public road right-of-way is prohibited. Hunting or the discharge of firearms on roads or highways located on public

levees or within 100 feet from the centerline of such levee roads or highways is prohibited. Spot-lighting or shining from public roads is prohibited. Hunting from all public roads and rights-of-way is prohibited.

SEX IDENTIFICATION

Positive evidence of sex identification, including the head or sex organs, shall remain on any deer taken or killed within the state of Louisiana, or on all turkey taken or killed during any special gobbler season when killing of turkey hens is prohibited, so long as such deer or turkey is kept in

camp or field, or is in route to the domicile of its possessor, or until such deer or turkey has been stored at the domicile of its possessor or divided at a cold storage facility and has thus become identifiable as food rather than as wild game.

SUMMARY OF FEDERAL REGULATIONS

In addition to state regulations, the following federal rules apply to the taking, possession, shipping, transporting and storing of migratory game birds:

RESTRICTIONS

No person shall take migratory game birds:

- with a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10-gauge, punt gun, battery gun, machine gun, fishhook, poison, drug, explosive or stupefying substance.
- with a shotgun capable of holding more than three shells, unless it is plugged with a one-piece filler which is incapable of removal without disassembling the gun.
- from a sink box (a low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water).
- from or with the aid of a car or other motor-driven land conveyance or any aircraft, **EXCEPT** that paraplegic and single or double amputees of the legs may take from any stationary motor vehicle or stationary motor-driven land conveyance. "Paraplegic" means an individual afflicted with paralysis of the lower half of the body which involves both legs, usually due to disease of or injury to the spinal cord.
- from or by means of any motor boat or sailboat unless the motor has been completely shut off and/or the sail furlled and its progress therefrom has ceased.
- by the aid of baiting or on or over a baited area where a person knows or

reasonably should know that the area is or has been baited. A baited area is considered to be baited for 10 days after complete removal of any bait. Baiting includes placing, exposing, depositing, distributing or scattering of salt, grain or other feed that could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Agricultural areas must be prepared in accordance with official recommendations to be legally hunted. It is a separate offense to place or direct placement of bait on or adjacent to an area that causes, induces or allows another to hunt by the aid of bait or over a baited area. Hunters are responsible for ensuring that an area has not been baited and should verify its legality prior to hunting. The maximum federal penalties are: for hunting over bait; \$15,000/six months jail, and placing bait; \$100,000/one year jail.

- using records or tapes of migratory bird calls or sounds, or electronically amplified imitations of bird calls.
- by driving rallying or chasing birds with any motorized conveyance or any sailboat to put them in the range of the hunter.

WANTON WASTE

All migratory game birds shall be retrieved, if possible, and retained in the custody of the hunter in the field.

TAGGING

No person shall give, put or leave any migratory game birds at any place or in the custody of another person unless the birds are tagged by the hunter with the following information:

1. The hunter's name and signature.
2. The hunter's address.
3. The total number of birds involved, by species.
4. The dates such birds were killed.

Tagging is required if the birds are being transported by another person for the hunter or if the birds have been left for cleaning, storage (including temporary storage), shipment or taxidermy services. (*Migratory Bird Possession Tags are provided on page 99 and may be used for such purposes.*)

POSSESSION OF LIVE BIRDS

Wounded birds reduced to possession shall be immediately killed and included in the daily bag limit.

FIELD DRESSING

No person shall completely field dress any migratory game bird (**EXCEPT** mourning doves and band-tailed pigeons) and then transport the bird from the field. The head or one fully-feathered wing must remain attached to all such birds while being transported from the field to one's home or to a migratory bird preservation facility.

NONTOXIC SHOT REGULATIONS & ZONE DESCRIPTIONS

No person shall take migratory game birds while possessing shot other than steel or other approved shot. This restriction applies only to ducks, geese, brant, swans and coots.
